

The Whole Tooth and nothing but the Tooth.

Teeth numbers oral cavity scheme with upper and lower jaws and incisor, cuspid, bicuspid and molar tooth types. Dentistry related educational and informative graphic. Maintaining healthy mouth hygiene

The standard tooth numbering system is from 1 to 32.

Tooth number 1 is the tooth farthest back on the right side of your mouth in the upper (maxillary) jaw. Numbering continues along your upper teeth toward the front, and across to the tooth farthest back on the top left side (number 16).

The numbers continue by dropping down to the lower (mandibular) jaw. Number 17 is the tooth farthest back on the left side of your mouth on the bottom. Numbering continues again toward the front, and across to the tooth farthest back on the bottom right side of your mouth (number 32).
